Prix : 90 €

Format 24x29 cm
Hard cover • 180 pages
with over 460 photographs
Limited edition of 600 !
Only 300 for sale today !
Price: €90

**"This book documents the history of these seven unique Bugatti
and is a MUST BUY for every Bugatti enthusiast!"**

(cf. The Book Review for the American Bugatti Club
by his President T. Clifford in August 2022)

The Type 101 constituted the first renaissance of Bugatti after the period 1939-1945. Six cars were built in 1950, 1951 and 1952 and a last chassis was bodied in 1965, after the sale of the firm by the Bugatti family in 1963. These seven 101's have all 'survived'!

The author, a collector from Mulhouse, has fulfilled three ambitions: to acquire a type 101, to reunite the seven 101's which is a world first, and to edit a book on the 101's.

This book of 180 pages contains over 460 photographs including some previously unpublished of the seven Bugatti 101's, reunited for the first time ever at the Musée National de l'Automobile - Collection Schlumpf, Mulhouse, in 2022; photographs by Xavier de Nombel, Yves Ridon and the author.

The book also includes a number of anecdotes mainly relating to clubs, concours (Pebble Beach, Villa d'Este...) and numerous references to the Alsace region where all of these Bugatti's were built.

The author, Daniel Marachin, is a former President of Club Bugatti France and presently the President of the ACM, Association des Clubs de Marque automobile française.
